Infant Site Security Statement.

As a rural village school we take site security very seriously. The security has been risk assessed and the following actions have been taken:

The side gate, by the Foundation area, is locked at 9.00am and reopened at 3.00pm to let the parents in.
The church has been asked to replace the gate from the school house onto our property.
The front door is locked and from the outside is only openable with a key code or a key.
The bar gates for vehicle access are kept shut.
All staff question unknown adults who may be on site (grounds people, service engineers)
All visitors to the school are asked to sign in. If they are professionals working with the children we ask to see their identity badge.
All visitors are asked to wear visitor stickers.
Any adult working with the children must have a current CRB (staff, parent helpers, people running clubs, sports providers, instrumental teachers, and French teachers)

It is not possible to make the site completely secure as we are surrounded by houses on two sides and an access route at the rear. Any heavy duty fencing solution will detract from the nature and intent of the school.
