

RIVER JOURNEY WATER SWIRLERS

- Every child performing needs 2 water swirlers to be part of a huge flowing river
- homemade of course and made from every day recycled materials!!

Materials: You will need:

- For handles: 2 x toilet roll inner card tubes and paper to cover
- For water swirls: a mixture of grey, green, silver, blues, whites - cellophane, crepe or tissue papers, recycled bunch of flower cellophane, holographic if you like
- Scissors, stapler (ask for adult supervision)

To make the handle:

Carefully cut a square of coloured paper  
I chose holographic paper  
Wrap it around the tube to cover the dull card.

Staple into place

**To make streamers for the water swirler:**

Cut streamers from an assortment of crepe paper, wrapping paper, old flower cellophane, holographic paper – mix of water colours

This is easy and quick to do if you cut the end off a folded paper roll – this makes lots in one go! Crepe paper comes like this in the packet but you can easily fold your own paper in the same way

Squeeze one end of your handle together and staple the water swirly streamers into place.

Small

Medium

Large

**FINISHED!**

**Different schools will need to have different length streamers depending on where you are sitting and how strong and big the river has become**

**Small 10cm streamers plus handle**

**Medium 20cm streamers plus handle**

**Large 30cm streamers plus handle**

**Check below and then cut to the right length if too long!!**

**Small 10cm**

St Peters, Hughenden, Iver Heath, St Edwards, Ickford, Radnage, Gt Kingshill, Princes Risborough

**Medium 20cm**

Little Chalfont, Oak Green, Cedar Park, Beechview, Seer Green, Stokenchurch, Holmer Green, Kingswood, Chesham Bois, Overstone, Woodside, Holtspur

**Large 30cm**

Curzon, Disraeli, Bierton, Elageni, Longwick, Cuddington and Dinton, St Nicholas, Whitchurch, Highworth, St Johns, Butlers Cour

**ENJOY MAKING THEM – GOING TO BE FUN USING THEM**
