

Year 5 Prayer: Week beginning 12th November

Getting on and Falling out.

Dear Lord,

Sorry that we don't always respect and help people and their dreams as you would wish us to. We apologise for not getting along with each other. We are sorry for not respecting the world by littering plastic that goes into the ocean and disturbs the wildlife. We are sorry for wars against different countries, who have other views to ours.

Thank you that we can forgive each other and turn old friends into a new and stronger friendship. Thank you for friends that can support us in tricky situations. Thank you for giving me the strength to help others.

If we don't get on with others, then another war will start and we do not want that to happen. Getting on together is so important because the world will be a happier place to live in.

Please help us to get things that we want so that we can share and get along with each other. Please don't let humans destroy nature for our amusement. Please help us to be kind and not argue so we can be peaceful towards others.

Amen
