

Year 5 prayer: Patterns in our life

Dear Lord,

We are sorry that we disrupt others' patterns in life for our benefit. Sorry for not understanding stages of life like adolescence! We are sorry for not helping others in their life patterns and focusing on only ours.

Thank you for patterns in our life. We are thankful that we are educated in a great place. Thank you that we have chores to make us ready for the life ahead. We are thankful that we are a part of this world, as we develop our personalities.

Help others adapt to changes and patterns in their life. Help us to accept others' life patterns as they accept ours.

Please help us to accept change even if we find it hard. Please remind us that every creature has loved ones and their own journey through life. Please help us to help each other when we are going through hard times like exams, losing someone that you are close to or having disabilities.

Amen
