

Year 6 prayer week beginning 8th June

What does respect mean?

Dear Lord,

Sorry that we don't respect the Earth and we keep on polluting. We are sorry that we are not respecting nature such as when we cut down trees and when poachers kill rhinos and elephants. We will respect what you have created for us. We are sorry that we don't always respect everyone, being disrespectful to others when we talk over each other and don't listen.

We thank you for giving us opportunities to respect others such as saying please and thank you to people who help us. Thank you that everyone has good qualities even we are all different and respect people, who are different from us. Thank you, God, for creating our remarkable world.

Help us to show respect for others like our parent and the NHS, who are helping us through this difficult time. Keep the scientists (who are trying their hardest to find a cure) stay safe. Please help us to care for others and show respect to others around you.

Please help us to show respect us to others and the environment around us. Trying not to litter and pollute our planet is key. Help us to continue keeping the levels of pollution low and help the people to be mindful of the incredible world we live in. Help us ensure the endangered species like the turtle, that have been making appearances on beaches for the first time in decades because of the lockdown, survive. Please make sure we carry on respecting our parents and siblings while we are being home-schooled and our teachers, who are doing the best for us in this hard time.

Amen
