

Dear Lord

Thank you for making me, me. Thank you for the friends that I have and thank you for making me the friend who you can trust. Thank you for letting me be myself so I can be a great friend and to celebrate mine and my friend's differences.

Thank you for teaching me the skills to be successful in playing football and in all my lessons in school. Thank you for giving me the energy and motivation to give everything in life a go and giving all my friends their unique talents.

It is good to be me because I can be different from other people and can show off everything that makes me great. I don't need to be clever or smart, I just need to be me.

Help others by giving them the courage to be who they want to be and give them the talents to make them unique and special.

Amen.
