

How have we changed? Year 5

Dear Lord,

Thank you for making us unique in our own special ways and teaching us new abilities, talents and skills. Now that we are growing up, help us become more responsible and mature in different situations.

Please help us make the right choices and be more mature as we get older, Help our personality to develop so we can be a happy, likeable, generous and forgiving person.

We pray for changes in this world, such as: hunting animals like tigers, pollution and global warming. If we don't, animals and humans will become extinct along with our once amazing planet. Please make wars stop.

As we grow up, our emotions may change. We might start to be upset over things that are quite small. But we are thankful that we have understanding adults that have been through the same situation and so they are here for us when we need advice.

Thank you for letting us change and develop new interests and hobbies like football or dancing. Even though our interests change, we are still the same person. Help us to gain strength and improve our skills. We thank you again for giving us these talents, through which we can shine our light.

Amen
