

Year 6 prayer - Love - What is a family?

Dear Lord,

Thank you for letting us have families of our own: families that keep us safe and comfort us. Sorry that we sometimes disrespect our families and loved ones. Please help others who have lost their families or who have been separated from them due to conflict or illness. Please allow them to experience some level of stability in their lives.

A family is a group sharing inherited genes; it should also be a place of safety and happiness, where we can feel loved and cherished. Please help us to remember to love our families, to cherish them and not take them for granted.

Cuddington and Dinton School is a place of safety and happiness. It is also our family.

Amen
